# WELCOME NOTE

Hello Sis,

I am delighted to welcome you to a unique Global Women's Leadership Conference in the vibrant city of Milton Keynes in the Buckinghamshire countryside.

Outstanding leadership starts with self-leadership. The theme of this year's conference centres on 'Building Self-Leadership'. My fellow sis, you are pivotal in building stable foundations for a better society, yet many of us face many obstacles in our leadership journey.

How do we rise above these challenges within us and around us? And how do we ride to our potential and impact our communities? The woman that comes to my mind is Jael from Judges 4:14-23. She was not famous and was perhaps looked down upon as a nobody and yet through determination, wisdom and stepping out of her comfort zone; she used what she had in her possession to save a nation. Her story resonates with my experience, and many other women have similar stories.

Our fantastic 2-days event aims to build and propel a generation of leaders forward despite their circumstances, background, ethnicity and sector, enabling them to unlock their potential and self-awareness to become the leader they aspire to be.

It brings together exceptional women, "The Jael's of Our Time", from across the globe!

Women who have risen against all odds are coming together in sisterhood, sharing their vulnerability in their successful leadership journeys, so we can deepen our knowledge on the core concepts of self-leadership and leading others.

The small group activities will provide opportunities for personalised reflections and goal setting.

Enjoy the #GWL2022 conference. Your presence is an indication that you are committed to making a positive difference, not only to yourself but to families, communities and nations around you.

Like Jael, use the skill that God has given you to positively influence yourself and others, thereby affecting a generation of leaders around you.

Special thanks to our guest speakers, partners and sponsors for this great event.

Warm wishes,  
Dr Chimwemwe Kalumbi-Mkambula  
CHPNet President

**RACHEL  
MITCHEL**

- Associate Staff Worker - Nurses & Midwives Team at CMF
- Saline Solution Trainer

Every Christian health professional has a unique opportunity to improve their patients' physical and spiritual health, but many feel frustrated by the challenge of integrating faith and practice within time constraints and legal obligations.

However, the medical literature increasingly recognises the important link between spirituality and health and professional guidelines approve discussion of faith issues with patients provided it is done appropriately and sensitively. Christians are called to be 'the salt of the earth' flavouring life with grace and truth. Saline Solution is designed to help Christian health professionals become more comfortable practicing healthcare that addresses the whole person's needs. There is a mixture of teaching and small group discussion.
